**Re: Application 09/787,002**

**Julije Ozegovic: Devices with window-time-space flow control (WTFC)**

**Non-final Office action Art Unit 2666 of October 26, 2004. and**

**Notice of Non-Compliant Amendment of April 25, 2005.**

Sirs,

enclosed you can find corrected amendments to the specification and claims, as requested by examiners, accompanied with Notices to examiners.

This response is going to be mailed on Monday, May 23, 2005. Please consider mailing date as the date of reply. The reason for this is that mail from USA and Croatia sometime takes more than 10 days to arrive. Particularly, the Notice of April 25, 2005. was mailed on May 03, 2005. and received in Croatia on May 18, 2005.

If this response does not meet the one month deadline which expires on 03. June 2005., and if mailing date can not be considered being a date of reply, please allow for extension of one month under 37 CFR 1.136(a). The reason is, that more than 20 days of allowed 30 were possibly wasted on mail delivery.

Split, May 23, 2005.

Best regards,

Julije Ozegovic

**Notes to examiner of May 23, 2005.**

Amendments to specification and claims are now both based on document WO 00/21244.  
Aggregated amendments include:

- amendments under IPEA
- amendments as suggested by Non-final Office action Art Unit 2666 of October 26, 2004.
- amendments as suggested by Notice of Non-Compliant Amendment of April 25, 2005.

Best regards,

Julije Ozegovic
